Lincoln weldanpower g80pp

Hey I have a Lincoln weldanpower g8000 with an onan 16sxl (p216g). It will run for a couple minutes but then dies. I already cleaned the carb thoroughly. Whenever I hear that it is about to die I can keep it running if I jiggle the control arm that attaches to the idler but it won't keep running in its own. The alternator is no good I have it hooked up to my truck battery to get power to it.
